02/21	200.000
05/21	200.000
08/21	300.000
11/21	400.000
02/22	500.000
05/22	600.000
08/22	700.000

Circulating Supply

- SGT has 10 million total supply & it is not possible to mint.
- Real Circulating Supply includes the geyser emissions, bounties, vesting tokens, and realistic share from on-demand allocations.
- 35% of the total supply is allocated on-demand, for improvement expenses and Treasury, which will provide an insurance to the SharedStake users.

Staking Emissions

There are 2.9M SGT to be distributed in the Staking Geysers, in a period of 2 years. Emission rates will be updated every 3 months. First update is on May 2021.
